Driven Software Engineering student specializing in **Full Stack Development (MERN, PHP/Laravel)** with growing expertise in **AI, DSA, and OOP**. Skilled in building responsive, scalable applications using modern web technologies. Strong foundation in **C++** and hands-on experience in **front-end and coding**. Passionate about applying technology and AI to solve **real-world challenges**.

Experience

CodeCelix (Remote Internship) *Nov 2025 – Mar 2026*

- Built modern, responsive web applications using **React.js, Tailwind CSS, and Framer Motion**.
- Enhanced UI/UX and optimized performance for cross-device compatibility.
- Worked closely with cross-functional teams to deliver scalable and user-friendly solutions.

Apexify Technologies (Remote Internship) *March 2026-April 2026*

- Developed responsive web applications using HTML5, Tailwind CSS, and modern JavaScript (ES6).
- Managed projects independently and delivered high-quality solutions on time.

Education

Virtual University of Pakistan.

BS Computer Science

3.53 GPA 2024-2027

Skills

- **Languages:** JavaScript (ES6+), C++, C

- **Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion
- **Core Concepts:** Responsive Design, UI/UX, OOP, DSA
- **Tools:** MS Word, MS Excel, Git, GitHub, VS Code.
- **Other:** REST APIs, Team Collaboration

Projects

NeuroCelix Web Application

- Developed a responsive web application for NeuroCelix using React.js and Tailwind CSS.
- Implemented dynamic features and interactive UI elements with Framer Motion.
- Integrated REST APIs for real-time data handling and seamless user experience.
- GitHub: <https://github.com/noor-1457/Neurocelix-AI>

Complaint Management System

- Designed and built a full-stack Complaint Management System.
- Implemented efficient data handling and user-friendly interfaces.
- Ensured smooth workflow and easy complaint tracking for users.
- GitHub: <https://github.com/noor-1457/smart-clinic-management-system>

Looking forward to opportunities that allow me to learn, grow, and build real-world experience in AI, Full-stack development, software development and emerging technologies
